

# I-64 EXIT 91 INTERCHANGE IMPROVEMENTS

AUGUSTA COUNTY, VIRGINIA

**CLIENT:**

Virginia Department of Transportation (VDOT)

**CONTRACT AMOUNT:**

\$21 million

**DELIVERY METHOD:**

Design-Build

**CONTRACTOR:**

Shirley Contracting Company

**DESIGNER:**

Dewberry Consultants LLC

**COMPLETION DATE:**

August 2015

The Shirley Design-Build team was recently awarded the \$21 million I-64 Exit 91 Interchange Improvements project by the Virginia Department of Transportation (VDOT). This design-build project will address traffic growth in Augusta County by increasing the capacity, operational safety and addressing existing access management issues on the 285 corridor influencing the interchange.

As a part of this project, the Shirley team will make significant enhancements to Route 285 (Tinkling Spring Road), including include widening the ramps, replacing/widening the Route 285 bridge and road from a two lane (primarily) rural-section to a four lane urban roadway, to include intersection and signalization. The Project limits on Route 285 are expected to extend from 0.70 mile north of I-64 to 0.43 mile south of I-64. Dual turn lanes and dual receiving lanes will be provided at both I-64 on-ramps. Dual left turn lanes will be built at Route 636 to accommodate traffic growth from the nearby hospital complex.

Under this contract, Shirley will also be responsible for design and construction of widening Route 285 and of the I-64 Exit 91 on and off ramps, demolition of the existing bridge structure, bridge substructure and superstructure construction right-of-way acquisition, lighting, drainage, signals, signing and pavement marking, stormwater management, traffic management plan, erosion and sediment control, and utility relocations within the Project limits.
