

WE GOT THE JOB!

Gloucester Parkway Extension

We are pleased to announce that the Virginia Department of Transportation has awarded Shirley a \$26 million design-build contract for the Gloucester Parkway Extension located in Loudoun County.

The parkway extension is a critical east/west transportation link that will connect Route 28 to Loudoun County Parkway. The project scope includes the construction of two 1,240 foot-long bridges over Broad Run, reconstruction of a section of the Loudoun County Parkway, and adding a four-lane approach roadway. The project team also will install traffic signals and relocate numerous utilities.

The design is underway and construction is scheduled to begin in late 2014. Project completion is scheduled for August 2016.

Congratulations to everyone involved in this winning effort!
